

ALON Global Privacy Statement

Last Updated: January 10, 2022

Introduction and overview

ALON leverages technology responsibly to power prosperity around the world, and we believe that everyone has a right to privacy. At ALON, we view privacy as a key part of the value that we deliver to our customers. [ALON's Data Stewardship Principles](#) were developed to describe ALON's values regarding the data our customers entrust to us.

Scope of this Privacy Statement and our role

As a financial services and technology company, we're providing this Global Privacy Statement (which we'll refer to as "Privacy Statement") to explain how we, ALON Inc. and the ALON group companies (collectively "ALON", "we" and "us") collect, use, share or otherwise process information when you interact with us and our offerings, services and experiences, or when businesses provide us with your information. This Privacy Statement is global in nature, meaning that it is applicable to all ALON websites and offerings, and it describes our privacy practices when we process:

- a) Personal information for the purposes of preparing a tax return or in connection with the preparation of a tax return (collectively, "Tax Preparation Information") as part of providing accounting tax preparation services;
- b) Personal information for the purposes of providing the benefits of the ALON platform, which is collectively, all of ALON's services, sites, experiences and software (including through our mobile applications and desktop applications) other than Tax Preparation Information (the "ALON Platform"); and/or
- c) Personal information as necessary to manage, run, improve and develop our business and personalize your experience while interacting with the ALON Platform.

ALON determines the purposes and means of the processing of personal information, as described in this Privacy Statement, and therefore acts as 'data controller' (or equivalent/similar terms) for purposes recognized by certain data privacy laws. We may share your personal information within the ALON group companies and conduct processing activities as controllers or joint controllers for the purposes set out in this Privacy Statement. If you have any questions about the processing of your personal information, please contact us in the section "How to Contact Us" below.

This Privacy Statement does not apply where ALON processes personal information as a service provider (or equivalent role under data privacy laws, such as data processor) on behalf of a customer or entity who acts as the data controller. When we act as a service provider, the privacy statement of the relevant data controller and our

agreements with such business or entity will govern our processing of such personal information.

In certain circumstances, there may be more than one data controller processing your information. For example, your employer or a financial partner may also act as a data controller. In these situations, we act as an independent data controller over our processing activities – meaning that we make determinations over how your personal information will be processed independently from the other data controllers. The other data controllers have their own obligations under applicable information privacy laws. ALON is not responsible for the processing of other data controllers (including our customers) and you should contact them directly for questions on how they process your personal information and for exercising your privacy rights in relation to such processing.

The ALON Platform

The ALON Platform and your information

When we say “platform” we mean that when you choose to share data with us, or bring over information from third parties (like a bank or loan provider), we use that data together, not just within the individual offering(s) you’re using.

The personal information we use in this centralized way is all the information that ALON knows about you, either because you are an end user of our services or a customer contact (like a subscriber to a customer's email list) whose personal information has been included in the ALON Platform. It includes information such as your credentials; your name and contact details; payment information; information about your activities, behavior, your interests and preferences (including purchase history with ALON or if you're a customer contact, our customers); insights about your finances, business or preferences or your contacts; the content you or others place about you in our Platform; and information we have collected about you from third-party sources.

Organizational account information

Some experiences and services within the ALON Platform allow you to interact with an organization (such as your employer). If you are granted access to an organization or household account (for example, a business's account in ALONs), the owner of the organization or a designated administrator may control and administer details of your account, for example, by deciding your access rights; making decisions about your personal information (such as details about your payroll); or requiring you to take certain actions (for example, use location tracking to clock in for a shift). If your access rights are amended by the owner or designated administrator, then you may lose access to the information that is in the control of the organization.

Your use of the ALON Platform as part of an organization’s account may be subject to the organization’s policies, which may be different from this Statement. We are not responsible for the privacy or security practices of other organizations, and you should consider both the organization's policies and whether you are comfortable enabling the organization with access to your information prior to connecting to their services.

ALON does not sell your Biometric Information.

When we collect Biometric Information, you will receive a specific notice and consent request at the time of that collection. You are not required to consent to the collection of Biometric Information in order to use our services, although some functionality may not be available if you decline and you may withdraw your consent at any time.

ALON will retain Biometric Information until the purposes for which it was collected have been satisfied or three years from your or your organizational account manager’s last interaction with ALON, whichever comes first.

As a result of those connections, others may be able to input information about you, including business customers using the ALON Platform. You may also be able to input or process information about others, for example, if you are an account administrator of one of our products or use ALON to manage customer lists.
